"By a thorough knowledge of the natural laws which
govern the operation of digestion and nutrition, and by
a careful application of the fine properties of well-
selected chocolate, we have produced this delicious

save us many heavy doctors' bills. It is by the judicious
use of such articles of diet that a constitution may be
gradually built up until strong enough to resist every
tendency to disease. Hundreds of subtle influences are
floating about us ready to attack wherever there is a
weak point. We may escape many a fatal ailment by
keeping ourselves well fortified with pure blood and a
properly nourished frame.—Civil Service Gazette.
